# mediaPacker™: packing 3 decades of experience into 100g of audio-visual player

Offering a full range of content input types and playback modes, the mediaPacker™ gives you the control and flexibility to present content exactly as you like. Its open platform architecture makes changes and updates easy, quick and intuitive. Small, robust and easy to use and store, yet doubling as audio guide, video-sync guide and group-guide, the mediaPacker™ system is a heavy duty interpretation tool that also represents exceptional value for money.

## The mediaPacker's unique benefits

- ▶ A full range of media source types – including audio, images, video and radio – and a wide choice of traditional and intuitive new playback modes makes building bespoke multimedia content quick and inexpensive:
  - Traditional linear, with 2nd levels
  - Traditional random access, with 2nd levels
  - Multi-lingual video dubbing mode
  - **New!** dynamic menu mode
  - **New!** slide-show mode.
- ▶ The mediaPacker™ doubles up as multi-lingual **group-guide system**. Offering over 100 discrete groups, the mediaPacker™ also seamlessly mixes pre-recorded and live audio, thanks to its flexible chipset design.
- ▶ The mediaPacker's video-sync function allows for simultaneous transmission of multi-track foreign language video dubbing, accessed simply via the keypad.
- ▶ The mediaPacker™ offers full visitor data capture and analysis, available either locally or via the web.
- ▶ The dualFuel™ power centre switches automatically between the rechargeable battery and a back-up battery, so the mediaPacker™ never need run out of power, even with heavy usage.
- ▶ Twin earphone sockets allow two users to share the mediaPacker™ and jointly enjoy a great audio experience.
- ▶ All imagineear's professional lines come with our WMI package as standard, and include a 2-year warranty and maintenance programme, and optional additional low-cost extended warranty and all risks insurance, designed also to protect you against accidental damage and shrinkage.

## Specifications

- ▶ **Frequency range:** 20-20,000 Hz
- ▶ **Distortion:** <0.01%
- ▶ **Dynamic:** >90db
- ▶ **Audio output:** 2 x 3.5 mm

### Tour functionality

- ▶ **# Languages / tours supported:** 99
- ▶ **# Messages supported:** 9999
- ▶ **Message access:** random access
- ▶ **video:** 320x240 @ 15fps
- ▶ **RF functionality:** 76-108 MHz analogue FM

### Physical characteristics

- ▶ **External memory format [replaceable]:** Micro-SD(HC)
- ▶ **Upload interface:** Mini-USB 2.0
- ▶ **Navigation:** T9 keyboard
- ▶ **Screen:** QVGA-260K colour
- ▶ **Screen size/orientation:** 2.4" diagonal, 320x240, 4:3 ratio, landscape
- ▶ **Lanyard [with safety lock]:** Yes
- ▶ **Min - max temp:** 0-50°C
- ▶ **Min - max humidity:** 0-90%

### dualFuel™ characteristics

- ▶ **Battery type 1:** rechargeable Lion
- ▶ **Time to charge:** 4 Hrs
- ▶ **# Lifetime charges:** 750 x
- ▶ **Autonomy:** 8 Hrs
- ▶ **Charging interface:** Mini-USB 2.0
- ▶ **Charging rack:** 10 x slot, stackable

### Battery type 2

- ▶ **alkaline, AAA**
- ▶ **Autonomy:** 8 Hrs

### Player dimensions

- ▶ **Weight [incl memory and battery]:** 90 grams
- ▶ **Length:** 10.0 cm
- ▶ **Width:** 7.0 cm
- ▶ **Depth:** 1.4 cm

### Warranty information

- ▶ **Manufacturer's warranty:** 2 Years
- ▶ **RoHS manufacturing:** Compliant
- ▶ **WEEE scheme compliance:** Registered
- ▶ **ISO manufacturing certificates:** 9001-2000
- ▶ **CE:** Yes
- ▶ **FCC:** Approval pending

### Configuration

#### Basic configuration

- ▶ **External memory:** 2GB
- ▶ **Fastening:** Lanyard
- ▶ **External speaker:** 1 x Headphones
- ▶ **Colour scheme:** Lime green / black

#### Options

- ▶ **Customised colour scheme:** Any, to order
- ▶ **Video synchronisation:** Available
- ▶ **Anti-theft protection:** Available
- ▶ **Statistics programme:** Available

- ▶ imagineear's unique USB upload software means hundreds of players can be uploaded from a single PC in one go, either locally or remotely via the web.

- ▶ Our ultra-compact and modular smartCharger™ rack solution takes next to no space, charges all players in imagineear's professional line, and allows multiple charging racks to slot together and run from a single power source.

- ▶ imagineear's own-design headphones combine excellent sound quality, great value for money and design simplicity, and are reinforced at the most common point of failure.

- ▶ The mediaPacker™ is CE cleared, WEEE and ROHS compliant.
