

MediaPacker™

The MediaPacker™ (MP™) is a 2.4" full-colour screen player with a numeric keypad, offering sites a cost-effective solution for handheld multimedia operations. It plays audio, video and images, with the option to display slide-shows, video synchronisation and text synchronised subtitling.

It can hold a practically unlimited number of tours, languages and stops, and visitors can navigate venues using tried and tested methods including by number, map or automated triggering. Built from scratch to our design and specification, with a wide range of different needs and venues in mind, the MediaPacker™ offers clients full control over tour content whilst maximising enjoyment of their visitors' experience.

The MediaPacker™ is supplied complete with flexible modular chargers and storage, reliable and comfortable headphones, and Imagineear's software suite for effortless upload and download as well as data capture and analysis capability, as standard.
